Are You Interested in Waldorf Education for Your Child?

You are invited to come and discover the Monterey Bay Charter School,
Offering a tuition-free public Waldorf-methods curriculum !

The Waldorf school curriculum, an approach to education which has developed and evolved over the last 80 years, brings enthusiasm and creativity back into the realm of school life, integrating all traditional disciplines of study including science, math, language, history and the arts into an humane and deeply transforming educational experience for the student. Waldorf allows a child to be a child, receiving new information and concepts gradually, and on many levels: visually, aurally and tactually.

The Monterey Bay Charter School is a public Waldorf-inspired school serving Kindergarten through 8th grade and is devoted to awakening in each student a passion for lifelong learning and compassion for others. Its instructive environment focuses on academics, creative and practical arts, a sense of community, and parent participation.

Awaken the Joy of Learning in Your Child!
